

**PAGB NATURE DEFINITION Issue 1, February 2013**

Nature photography depicts living, untamed animals and uncultivated plants in a natural habitat, geology and the wide diversity of natural phenomena.

Photographs of animals, which are domesticated, and photographs of cultivated or hybrid plants are ineligible.

Minimal evidence of humans is acceptable for nature subjects, such as barn owls or storks adapting to an environment modified by humans, or natural forces, like hurricanes or tidal waves, reclaiming it.

Any manipulation or modification is limited to minor retouching and must not alter the truth of the original scene
